Description :

Prsentation de l'diteurUFOs remain essentially a military and intelligence problem - and one demanding unprecedented security and deception, with access to information on a strictly 'need to know' basis. As early as 1960 former CIA director Admiral Hillenkoetter confirmed that, 'Behind the scenes, high-ranking air force officers are soberly concerned about the UFOs. But through official secrecy and ridicule, many citizens are led to believe the unknown flying objects are nonsense.' The same could be said today. Based on many years of research by one of the world's most respected authorities on alien phenomena, Need to Know draws

on top-secret documents, reports of encounters with large craft of unknown origin from pilots and personnel aboard aircraft carriers and destroyers and interviews with high-ranking military insiders. It is full of revelations, including the alarming escalation of aircraft accidents and the disappearance of hundreds of military aircraft during UFO encounters and recent near-misses with UFOs. The evidence is clear, balanced - and irrefutable. From Publishers Weekly

In this exhaustive and provocative polemic, Good (Above Top Secret, Alien Liaison), UFO researcher extraordinaire, endeavors to demonstrate that incontrovertible proof of UFOs is being buried by a global conspiracy of governments, academia and the media. Good catalogues hundreds of sightings of unidentified flying objects from the 1920s through the present and marshals scores of declassified government reports, news stories and eyewitness affidavits to support his often-controversial contentions: not only are aliens here, but the U.S. military has established contact with them; President Eisenhower met with aliens in 1954 at Edwards Air Force Base, Calif.; President Kennedy viewed alien bodies at an air force medical facility in Florida; President Nixon arranged for comedian Jackie Gleason to view alien bodies in 1973. Good emphasizes a lengthy record of credible witnesses, including military and airline pilots, who have reported unexplained phenomena, but he fails to provide incontrovertible evidence of UFOs, extraterrestrials or a global conspiracy of secrecy. Moreover, he ignores contradictory testimony, exaggerates rumors and circumstantial evidence, and reprises old charges. Nonetheless, UFO enthusiasts will appreciate this comprehensive and spirited UFO defense and the hundreds of supporting documents reproduced within. Bw illus. (Dec.)
