Description :

Prsentation de l'diteurJapanese Dictionary: 1,006 Kanji By Grade (with stroke order diagram) has been designed to allow readers to easily look for a Kanji character. There are three searching methods to find a Kanji character in this dictionary. If readers already know how to read the kanji, the ON-kun Index can be used. Both ON and kun reading are alphabetically sorted and searchable through Kindle Search Dictionary feature (typing the romaji at the bottom of screen and press Search Dictionary).Readers can also use the number of stroke index to find a Kanji character when the reading is now known. The list groups together the Kanji that are written with the same number of strokes.Last searching method is using Kanji Index by

grade. The Kanji are sorted based on the grade. For first grade there are 80 Kanji, second grade 160 Kanji, third grade 200 Kanji, fourth grade has 200 Kanji, fifth grade has 185 Kanji and sixth grade has 181 Kanji. In addition to the acquisition of new Kanji, this dictionary also provides some compounds or common words for each Kanji. We do hope that this dictionary will be a value for readers especially those who want to study Japanese and Kanji more seriously. Note: This dictionary includes stroke diagram order, which causes a large file size. The smaller version of the dictionary (without stroke order diagram) is available at <http://www. .com/dp/B00A71VAAQ> Presentation de l'auteur Japanese Dictionary: 1,006 Kanji By Grade (with stroke order diagram) has been designed to allow readers to easily look for a Kanji character.
