### Description :

Prsentation de l'diteurTaking Mesopotamia was originally inspired by Jenny Lewis's search for her lost father - the young South Wales Borderer who fought in the ill-fated Mesopotamian campaign of World War I. Through reconstructed diary extracts, witness statements, formal poems and free verse, the book extends into a wider exploration of the recent Iraq wars. It also includes translations of a number of the poems into Arabic, and photographs taken by Lewis's father on campaign in 1916. Woven throughout the book is a strand inspired by The Epic of Gilgamesh, whose themes of hubris, abuse of power and fear of death show us how little the world has changed in four thousand years.Prsentation de l'diteurTaking Mesopotamia was
