Description : Description du produit Classic novel. According to Wikipedia: "Thackeray is most often compared to one other great novelist of Victorian literature, Charles Dickens. During the Victorian era, he was ranked second only to Dickens, but he is now much less read and is known almost exclusively for Vanity Fair. In that novel he was able to satirize whole swaths of humanity while retaining a light touch. It also features his most memorable character, the engagingly roguish Becky Sharp. As a result, unlike Thackeray's other novels, it remains popular with the general reading public; it is a standard fixture in university courses and has been repeatedly adapted for movies and television. In Thackeray's own day, some

commentators, such as Anthony Trollope, ranked his *History of Henry Esmond* as his greatest work, perhaps because it expressed Victorian values of duty and earnestness, as did some of his other later novels. It is perhaps for this reason that they have not survived as well as *Vanity Fair*, which satirizes those values."

Biographie de l'auteur William Makepeace Thackeray was born in 1811 in Calcutta of Anglo-Indian parents. He was educated at English private schools and Cambridge but left without a degree. European travel was cut short by the loss of most of Thackeray's inheritance in 1833 in Indian bank failures, upon which he decided to make his living as a painter. Returning to London in 1837, he found himself with two young daughters and an insane wife by 1840 and forced to write for a living. Most of his early output was reviews, sketches, comic items or short serials for magazines, often under pseudonyms. His first novel, *Barry Lyndon*, was serialised in 1844, and Thackeray also published three travel books in the 1840s. His satiric vein and discontent with contemporary fictional norms led to his first major novel, *Vanity Fair*, in 1847, followed by a handful of other major novels over the next dozen years which turned from satiric to historical. Published lectures on the new field of English literature led to tours of the United States from 1852 and *The Virginians*, a novel set partly in America. Thackeray was a founding editor of the literary journal *The Cornhill Magazine* in 1859, but resigned due to ill-health in 1862, though his last works were published in the journal. He died in 1863.
