### Description :

Prsentation de l'diteurThe Magic of Metaphor presents a collection of stories designed to engage, inspire, and transform the listener and the reader.Some of the stories motivate, some are spiritual, and some provide strategies for excellence. All promote positive feelings, encouraging confi dence, direction, and vision.Revue de presse"The Magic of Metaphor is one of the most richly rewarding books I have read in a very long time - every page you turn brings a new revelation, a new insight, a new understanding, in a simple and beautiful way. Images come tumbling out, and with them truths about ourselves: who we are, what we are, and most

importantly, how the tools we need for life are to be found within each and every one of us." --Richard Reed - Better Business

Nick Owen has produced a bit of magic in this brilliant book; it is a collection of stories which can be used in a variety of settings, from teaching, to counseling. This is a highly enjoyable and readable book which inspires, and delights the reader on every page. The stories can be used as they are or adapted for different situations but each and every one of them has a message for most encounters in life. I found the last chapter particularly useful as it provides a guide to how the stories can be used in different situations. This is a book I will continue to use in many situations from telling stories to children to teaching adults for many years to come. I will be highly recommending this book to both my students and colleagues. --Julie Foster, Senior Lecturer, Faculty of Health Medical Sciences and Social Care University of Cumbria
